

SEMINAR ON FINANCIAL IMPACT OF SUSTAINABILITY DEVELOPMENT GOALS (SDGs) ON LISTED COMPANY

- GLOBAL RECYCLE STANDARD (GRS)
- CARBON ASSETS

Live Broadcast: Zoom

Background

In response to the UN-SDGs and the global environmental, social and governance (ESG), not only the business community has begun to pay attention to its responsibility for stakeholders in daily operations and supply chain management but the investment community has also gradually recognized it. So the rising global concerns of ESG and SDGs have significantly impacted the current financial strategies of listed companies and financial investments.
